

Abdulrazzaq Ango – Product Designer

About Me

I'm a product designer with a strong visual background, focused on designing clear, user-centered digital products across web and mobile.

My work centers on simplifying complex problems, improving usability, and creating interfaces that balance visual clarity, brand expression, and functional intent.

I enjoy working end-to-end, from shaping interaction structure to refining interfaces, visuals, and motion – with a consistent focus on clarity, coherence, and long-term scalability.
