

# Abdulrazzaq Ango – Product Designer

## About Me

I'm a product designer with a strong visual background, focused on creating clear, user-centered digital experiences across web and mobile. My work combines product thinking with visual design, branding, motion, and creative content.

I enjoy taking ideas from concept to execution, whether that means designing a digital product, building a visual identity, or creating engaging photo and video content. I'm driven by clarity, attention to detail, and creating work that feels purposeful and well-crafted.

## Education History

### TERTIARY EDUCATION

B. Tech Industrial Chemistry  
Abubakar Tafawa Balewa University Bauchi, Nigeria.
